
LE KIM DUNG

PROFESSIONAL SUMMARY

Fourth-year Data Science student based in Da Nang, currently completing my graduation thesis, seeking an AIOps / CloudOps Internship. Possesses a strong foundation in machine learning, data processing, and application deployment (Flask), backed by a Cloud Computing Associate (ACA) certification. Familiar with Agile/Scrum methodologies and software testing. Highly motivated to transition into AWS CloudOps and DevOps, with a full-time commitment to hands-on learning and contributing to real-world projects.

EDUCATION

Duy Tan University

- Major: Data Science (Fourth-year student)
- Duration: 2022 -Present
- GPA: 3.63/4.0

CERTIFICATION

- CODELAB GOOGLE I/O EXTENDED MIENTRUNG 2025
- CLOUD COMPUTING - ASSOCIATE LEVEL (ACA) of Alibaba Cloud
- BUILD WITH AI 2025 ORGANIZED BY GDG MIEN TRUNG
- BIGDATA COURSE OF SAMSUNG INNOVATION CAMPUS, AUGUST- 2024

PROJECTS

Emotion Prediction Using Voice (Python) **(1 month)**

- Process audio data to extract MFCC features
- ImplementKNN and DecisionTree models for classifyingemotions

https://github.com/KimDung1/VOICE-BASED-EMOTION-PREDICTION-TECHNOLOGY

TextSummarization in English (Python - LSTM) **(1 month)**

- Use the Seq2Seq model to create text summaries
- Utilize NLP and TensorFlow libraries for efficient processing

https://github.com/KimDung1/text-summarization

PPE Detection (Python - YOLoV8) **(2 month)**

- Trained a YOLOv8 model on 10 PPE classes (helmet, vest, gloves, mask, etc.) for safety compliance monitoring.
- Deployed the model on a Flask web app supporting real-time webcam detection and video streaming.

https://github.com/KimDung1/PPE_detection_YOLO

Employee Task Recommendation System (Python & Gemini AI) **(3 month)**

- Developed an AI-based system to recommend the most suitable employees for tasks using machine learning models and feature engineering.
- Integrated Google Gemini AI to generate explainable recommendations based on skills, experience, performance, and workload.

https://github.com/KimDung1/Employee-Task-Recommendation-System

To-Do List Management App with Chatbot (C# – WPF) **(1 month)**

- Implemented task management functions: Add, Edit, Delete, Search, and Mark as Completed.
- Integrated an AI Chatbot to inquire about the calendar

WORK EXPERIENCE

2023 – 2025

Home tutor

- TeachMath and Computer Science to middle/high school students.
- Guid students in learning basic Python.
- Developed strong communication and instructional skills.

SKILLS

Hard skills

- Cloud & DevOps : Cloud Computing fundamentals, Git/GitHub, Agile/Scrum methodologies, Software Testing.
- AI & Machine Learning: Python, TensorFlow/Keras, Scikit-learn, YOLOv8, Gemini AI integration, NLP, supervised/unsupervised learning.
- Data & Backend: SQL, Data preprocessing, EDA (Pandas, NumPy), Flask (Web App Deployment).
- Tools: VS Code, Jupyter Notebook, Google Colab.

Soft skills

- Fast learner, adaptable to new technologies
- Responsible and committed to real-world
- projects Good English communication (reading, writing, teamwork) Effective
- teamwork and collaboration skills
